

The Gender Perspective in the 2010 Parliamentary Elections

Nazra Association for Feminist Studies

About the Coalition:

The Independent Coalition for Election Observation includes three non-governmental organizations: Egyptian Association for Community Participation Enhancement (EACPE), Cairo Institute for Human Rights Studies (CIHRS), and Nazra Association for Feminist Studies. Throughout the electoral process, EACPE has monitored the situation on the ground through an extensive network of field monitors, CIHRS has been observing the media, and Nazra has been monitoring women both as voters and candidates in general seats and women quota seats.

The Independent Coalition for Election Observation found the following on Election day:

1. Because employees supervising the electoral process had limited knowledge about the women's quota system, inaccurate information was given to women about the system
